Education

IDK

Sept 2026 –

BE in Computer Science

- CGPA: /10.0
- Coursework:

Experience

Intern

Bangalore, India

Codemonk

June 2024 – March 2025

- Designed ergonomic keyboards using Shapr3D
- Made schematics of PCB using KiCad
- Handwired a few keyboards
- Bare metal coded a few simple keyboards
- Worked on STM32 MCUs and wrote firmware using STM32CubeMX

Peripherals: USB, UART

Projects

github.com/ashen1queter/bRick_bReak 

Breakable Keyboard

- Designed a keyboard that could be technically broken into four halves
- Wrote the firmware from scratch
- Peripherals: USB, UART
- Language: C
- Tools used: STM32CubeMX, KiCad, Shapr3D

Technologies

Languages: C

Technologies: STM32CubeMX, Shapr3D, KiCad, QMK
